About Us :

- **TAKSH Structbuild Pvt. Ltd.** is one of the leading emerging engineering civil construction company based at Gujarat. We have started our journey in 2007 in the name of TAKSH Construction as urban contractor and subsequently converted in to private limited company as **TAKSH Structbuild Pvt. LTD.** in year 2013.
- We have 15 years of very reach experience in construction industry and we are working PAN India.
- We have demonstrated competency in a vast range of civil construction works comprising Industrial Factory, All kind of Buildings (i.e. Commercial, Residential and Office Buildings etc.) and Infrastructure work etc.
- We have signifcant work experience with large corporate and MNC Client & Consultants. We are fully equipped with all the resources i.e. Manpower, Plant & Machinery etc.
- We have successfully completed more then 50+ projects in small span of last 5 years. This has been possible due to our emphasis on project management systems, quality and safety protocols, and continuous personnel technical trainings to our employees and up gradation of construction technology.

Vision :

To be recognized as trustworthy company through our values and performance in construction industry.

Mission :

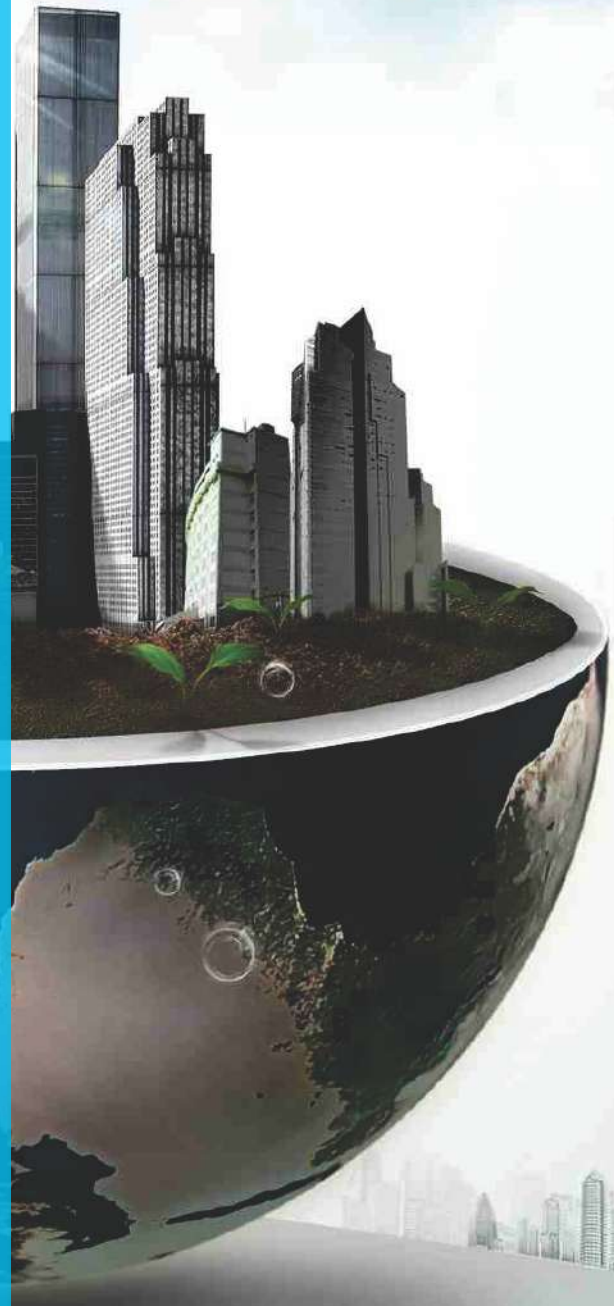

To provide utmost satisfaction to our customer through our commitment towards quality construction and timely completion along with cost effective.

Philosophy :

Taksh Structbuild aspires to become the most efficient and preferred Turnkey project solution provider and serve various segments like Corporates, Institutions, Hospitality, Commercial and Industries in India. We believe that customer is king and thus, client satisfaction and long-term relations are paramount for us.

“ *Doing the Right thing,
Right Method,
Right Time, First Time,
On Time and Every Time,
Best Quality and Safety
& Preservation
of Environment..* **”**

Objective and Strength:

- Knowing your need & budget well is our prime objective and we will evolve to provide you top-notch solutions as per your requirement.
- We believe that following are our strengths that have enabled us to come this far and those that encourage us to keep moving forward.

Health, Safety & Environment :

The purpose of Taksh HSE policy is to preserve the health of all stake holders along with their safety and security. Employees working under our supervision and various other professionals who may be affected by our operations or several purposes come under this policy as well.

Safety Works :

Zero is possible – each accident can be avoided.

- Adopt Safety as Culture.
- Continuously Training & Monitoring.
- Periodically Internal & External Audit.
- Flexible approaches.

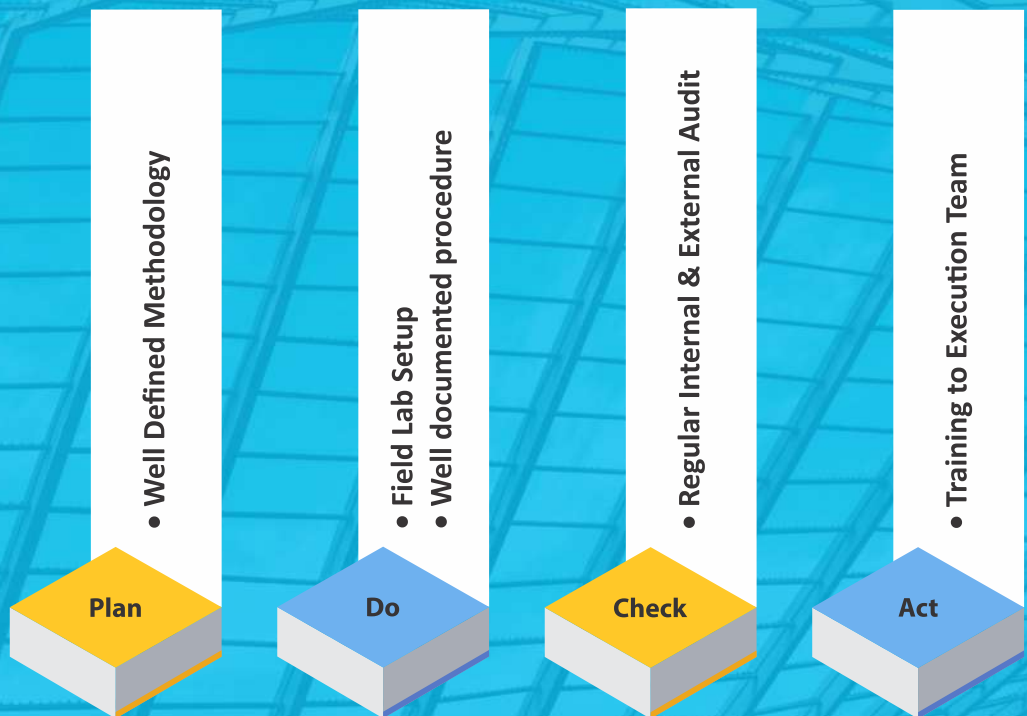

Quality Control :

Certification :

- We believe in quality and ensure stringent quality control at site during construction. For this we have documented quality system and procedure to be followed by all professionals working with and for us.
- We are excellent team of trained, experienced and skilled workers, employees and managers.
- We have established a material testing lab on site with all necessary materials and equipment with a quality controller in charge.

We Believed and Implement
